

ALUMERO
PV-FENCE SYSTEM

THE ALUMERO PV-FENCE SYSTEM

Easy to assemble and beautiful to look at thanks to internal cable routing, bifacial double glass modules and timeless design. In this way, the garden can also become a part of your own personal energy revolution. And thanks to the sustainable metagreen aluminium construction for many, many years. Regular aluminum fence panels of a suitable design can be installed in shaded areas.

MODULARITY STARTS WITH THE FIRST POST.

Der innovative Systemzaun mit integrierter Photovoltaik.

Based on a tried and tested aluminum design garden fence from our own production, we took the next logical step and expanded the system with integrated photovoltaics. In order to save costs, PV panels are only installed in areas that are not very shaded, where they also generate electricity and where it pays best.

- + Undisturbed optics thanks to internal cable routing
- + Light and strong thanks to aluminium
- + Quick and easy installation thanks to pre-assembled components
- + Statically tested components
- + Corrosion-free and recyclable
- + Large selection of colors and fillings

ERHÄTLICH IN:

	Anthracite Grey RAL 7016		Slate Grey RAL 7015
	Moss Green RAL 6005		Telegrey 4 RAL 7047
	Fawn Brown RAL 8007		Chocolate Brown RAL 8017
